What is a Geriatric Care Manager?

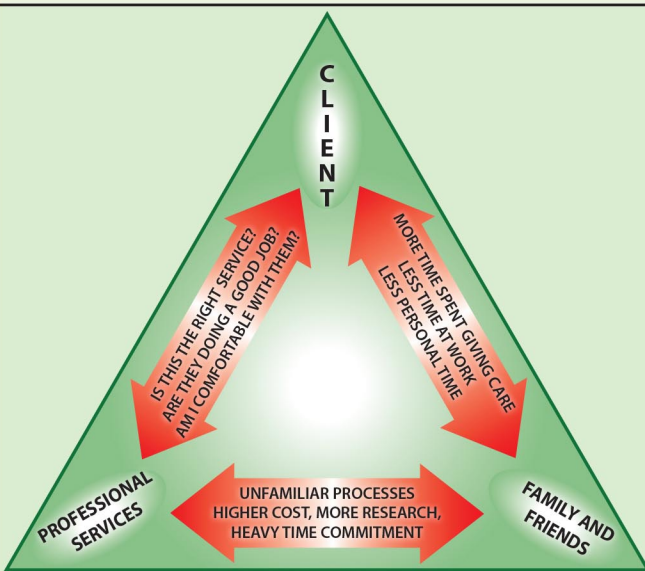

Why would I need one?

*A **Geriatric Care Manager** enhances the relationships between you, your loved one, and the services they require. Our expertise guides you through the complex processes of elder care, allowing your time with your loved one to be **quality** time.*

*With **Senior Support Solutions** you can conserve your family's finances by doing it right . . . the first time.*

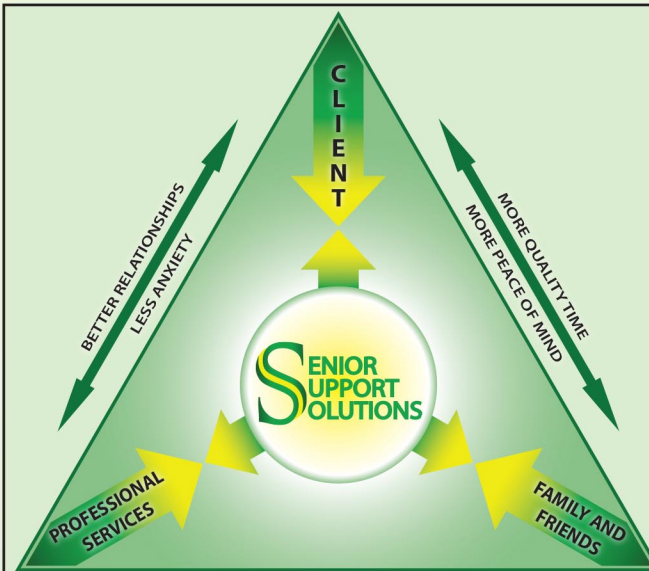

POTENTIAL RISKS OF HAVING NO CARE MANAGEMENT

Time spent with your loved one is spent delivering care, not quality time, and it can be time away from work, family, friends, and your own personal needs.

Researching services can be unfamiliar territory. There are risks of higher costs than necessary, and of heavy time commitments spent learning what services are needed, who to use, and how to pay for it.

Your loved one may not understand the services they use, or they may need an advocate to speak on their behalf for optimal care.

BENEFITS OF HAVING CARE MANAGEMENT

The time you spend with your loved one is quality time. For the times you can't be there you will have peace of mind knowing they are getting the care and attention that they need.

With our familiarity of products and professional services, the research is done. We can provide clearly understood direction, and give informative updates on your loved one.

With an advocate familiar with the services your loved one needs, you both can take comfort in knowing they are getting the quality care they deserve.

...the clear choice!

At Senior Support Solutions we offer care with a *personal* touch. Let our many years of experience in managing care work for you, giving you the peace of mind you deserve.
